Wavetec completes the largest installation at Mexico Stock Exchange. Combined in total, 150 m² of ultra-bright LED display was installed-- using 4mm and 10mm pitch.

Wavetec steered the project to install a 40 meter long LED Ticker on the front of Mexico Stock Exchange's building. Thomson Reuters, sponsored the project and provided support to renovate the displays at the Exchange.

Based in Dubai, Wavetec has successfully managed successful projects, screens installations and system integrations in more than 25 stock exchanges in Spain, Chile, Peru, Qatar, Bahrain, Saudi Arabia, Oman, Dubai, Nigeria and Kenya. It provides financial market displays that enable real-time information dissemination to financial institutions.
