

Bell Micro will distribute and support a wide range of Minicom DS products, services and solutions and will specialize in providing end-to-end Digital Signage solutions to its European sales channels.

Bell Micro made a strategic decision to enter the growing Digital Signage market over 3 years ago. In order to strengthen its portfolio, Bell Micro contracted alliances with various Digital Signage industry vendors such as screens, players and software vendors. Bell Micro is now able to offer a complete Digital Signage solution complemented by Minicom DS's media infrastructure solutions.

Bell Micro, a Fortune 1000 company is one of the world's largest IT storage-centric value-added distributors with revenues of over €1.3 billion in Europe (and \$3bn world-wide).
