---

When will Visix be purchased by someone like AMX, Extron, NEC or Scala? It's just a matter of time!

**Inc. magazine** today ranked Visix, a digital signage software provider, no. 3479 on its fifth annual Inc. 500|5000, an exclusive ranking of America's fastest-growing private companies. The list represents the most comprehensive look at the most important segment of the economy — America's independent entrepreneurs. This is Visix's 5th consecutive year appearing on the list. Visix is ranked 238 in the software industry category.

This year, **Visix released its first fully localizable digital signage application for international deployments,** a new interactive wayfinding product, a Twitter board digital sign, and bolstered their creative services and consulting efforts.
