Extron Electronics opens a product demonstration and training facility in Stockholm.

The new regional office will provide convenient access to Extron for customers in the Nordics. The new office will be a fully equipped, state-of-the-art training facility for showcasing and demonstrating the latest in Extron technologies and solutions. The office will be staffed by a dedicated technical and sales team, and will include meeting space, a training room, and a product demonstration lab.

Jérôme Guéras, VP EMEA says, "The new facility will allow customers to see working demonstrations of the newest Extron products, learn about AV technologies, and participate in certification courses closer to where they work and live."

The Stockholm office will be **staffed by Extron S3 Institute experts** and feature a familiar variety of Extron training choices, including hands-on training using real-world scenarios and courses to pursue various Extron Certifications. The first Extron training in the new facility is scheduled for October 6 and 7.

Other Extron regional training facilities in EMEA are located in the UK, France, Germany, the

Netherlands, Tel Aviv, Russia, South Africa, and Dubai.
