Peerless-AV offers a mount solution that gets large screens (40”-50”) tight to the wall, while making it simple to create ultra-sleek video walls in any configuration.

The ultra-thin 17.5mm (0.69") design provides a streamlined video wall profile. This **Peerless-AV DS-VW650**
modular system provides many possibilities for video wall arrangement by providing simple horizontal adjustment and custom pre-sized spacers. By eliminating the need for extra measuring or guesswork, it saves valuable time during installation.

This mount includes a wall plate and easy attachment rails that simplify getting the screen on the wall, while a sturdy locking rail affixes to the top to maximize safety and security.

Maximum load capacity 34kg (75lbs)
